SUPPORT DATA MAINTENANCE

SECTION B-6

SECTION B-6

**SUPPORT DATA
MAINTENANCE**

B-6 SUPPORT DATA MAINTENANCE

B-6.1 MAIN MENU

15-JUL-99		SUPPORT DATA MAIN MENU		050399PH LOOKDATA	
1 -	Agency	11 -	Status		
2 -	Appropriation	12 -	Subfeature		
3 -	Capability Standard Purpose	13 -	Suppress		
4 -	Category/Class/Subclass	14 -	Work Allowance Type		
5 -	Congress				
6 -	Environmental Category				
7 -	Feature				
8 -	Group				
9 -	Major Benefit				
10 -	State				
99 - Exit from PRISM					
Enter Your Choice: █					
[F10]--Previous menu [PgDn]--Check jobs running [HOME]--Go to reports directory Count: *0 <Replace>					

Screen Selection:
PRISM Main Menu -- 6 (Support Data Maintenance)

The Support Data Maintenance module is used to maintain the edit and look-up tables within the PRISM system. Only HQUSACE may add, modify, or delete values with these screens. Field users are limited to query mode. The primary function keys used in this module are described below.

PRIMARY FUNCTION KEYS:

F2 ENTER QUERY:

Press this key to clear the screen and begin a new query. This is helpful when you want to find a specific group of data that would cut down the number of records displayed. For example, suppose you want to see the Congressional Member names in the PRISM 'Congress' table for each district in a particular state. By entering the **F2** key on the Congress Support Data Maintenance screen, you could clear the screen and enter a value in the State field and leave the other fields blank. The system would retrieve and display all the districts within that state. You can also use the wildcard character (%) in your queries.

F3 EXECUTE QUERY:

The Execute Query key will retrieve all the records specified by the values you entered for the query.

F10 EXIT:

The Exit key is used to exit the current operation. This will exit the 'Enter Query' mode if that is the current mode; otherwise it will exit the screen.

Shift F2 NEXT SET OF RECORDS:

These keys are used when the screen displays a group of records and not all can fit on the screen. For example, the State form will display the first sixteen states. To view the next sixteen states, enter **Shift F2**.

(UP Arrow) NEXT RECORD:

When using a form that displays only one record at a time, the next record can be retrieved by pressing the down arrow.

(Down Arrow) PREVIOUS RECORD:

When using a form that displays only one record at a time, the previous record can be retrieved by pressing the up arrow.

B-6.2 AGENCY

15-JUL-99		SUPPORT DATA MAINTENANCE: AGENCY		052996PH	AGENCY
AGENCY NAME					CORPS
ABM	American Battle Monuments Commissio				F
AG0	Generic0				F
AG1	Generic1				F
AG2	Generic2				F
AG3	Generic3				F
AG4	Generic4				F
AG5	Generic5				F
AG6	Generic6				F
AG7	Generic7				F
AG8	Generic8				F
AG9	Generic9				F
AGN	Generic				F
AID	Agency for International Developmen				F
AK	Alaska, State of				F
AL	Alabama, State of				F
AMS	Amistad Dam				F
F10 = Exit Shift-F2 = Display Next Set of Records F2 = Query					
Count: 16		v		<Replace>	

Screen Selection:
PRISM Main Menu -- 6 (Support Data Maintenance)
Support Data Main Menu -- 1 (Agency)

This screen is used by the FORCON ~~module software~~ and contains all valid agencies ~~which may be entered on the TO/FROM screen to identify the giving or receiving of that give or receive funds.~~

AGENCY
Agency abbreviation.

NAME
The name of the agency.

CORPS
A “T” indicates that the agency is part of the Corps of Engineers. An “F” indicates that the agency is not a part of the Corps.

B-6.3 APPROPRIATION

15-JUL-99		SUPPORT DATA MAINTENANCE: APPROPRIATION		052996PH	APPROP
APPN	SYMBOL	NAME			
A	96X3121	GENERAL INVESTIGATIONS			
B	96X3122	CONSTRUCTION GENERAL			
BQ	^^^^^^	REIMB FROM OTHER CORPS/AGENCY			
BZ	96X3122	ENVIRONMENTAL RESTORATION SUPT			
C	96X3123	OPERATIONS AND MAINTENANCE			
CQ	^^^^^^	O AND M REIMBURSABLE ACTIVITY			
D	96X3125	FCCE			
E	96X3124	GENERAL EXPENSE			
EB	9653124	GENERAL EXPENSE FY95			
EF	9663124	GENERAL EXPENSE FY96

ER	96X3112	MR&T, CONSTRUCTION			
ES	96X3112	MR&T, MAINTENANCE			
EU	96X3112	MR&T, MISCELLANEOUS			
F10 = Exit Shift-F2 = Display Next Set of Records F2 = Query					
Count: 16		u	<Replace>		

Screen Selection:
PRISM Main Menu -- 6 (Support Data Maintenance)
Support Data Main Menu -- 2 (Appropriation)

This screen identifies all valid appropriation codes in the PRISM system.

APPN
A one or two character code used to identify the appropriation.

SYMBOL
The seven character appropriation symbol.

NAME
The name of the appropriation.

B-6.4 CAPABILITY STANDARD PURPOSE

15-JUL-99		SUPPORT DATA MAINTENANCE:		052996PH		STP	
CAPABILITY STANDARD PURPOSE							
STP	NAME						
1	NO ADDITIONAL REQUIREMENT.						
2	COMPLETE PROJECT.						
3	INITIATE PROJECT.						
4	CONTINUE PROJECT.						

F10 = Exit Shift-F2 = Display Next Set of Records F2 = Query
 Count: 4 v <Replace>

Screen Selection:

PRISM Main Menu -- 6 (Support Data Maintenance)
Support Data Main Menu -- 3 (Capability Standard Purpose)

This screen identifies the valid standard purposes which may be used on the Capability report in the PBS module.

STP

A code used to identify the standard purpose.

NAME _____

The standard purpose text which will display on the Capability report.

B-6.5 CATEGORY/CLASS/SUBCLASS

15-JUL-99SUPPORT DATA MAINTENANCE: CATEGORY/CLASS/SUBCLASS053097PH CCS		
APPN: A CCS: 032		

CCS NAME: UNALLOTTED APPROPRIATION		
BUDGET ACTIVITY	AND	SUBACTIVITY
BUDGET SUBACTIVITY NAME:		
PROJECT TYPE	AND	NAME
SUBLEVEL 1		
F10 = Exit Down-Arrow = Next Record F2 = Query		
Count: 1 v <List><Replace>		

Screen Selection:
PRISM Main Menu -- 6 (Support Data Maintenance)
Support Data Main Menu -- 4 (Category/Class/Subclass)

This screen identifies all valid category/class/subclass codes for use in PRISM. The category/class/subclass code is used to categorize types of work within an appropriation.

APPN

A one or two character code used to identify the appropriation.

CCS

A three character code used to identify the category/class/subclass.

CCS NAME

The name of the category/class/subclass.

BUDGET ACTIVITY

A code used to categorize groups of appropriation/ category/class/subclass codes.

BUDGET SUBACTIVITY

A code to categorize groups of appropriation/ category/class/subclass/budget activity codes.

BUDGET SUBACTIVITY NAME

The description of a budget subactivity.

PROJECT TYPE

A code used to categorize projects, such as 'N' for navigation or 'FC' for flood control.

PROJECT TYPE NAME

The description of a project type.

SUBLEVEL

A code used by the FORCON Module to indicate whether the FORCON data can or cannot be entered for the CCS. "T" is for detailed level CCS codes on which FORCON data may be entered. "F" indicates a higher level CCS code which does not accept FORCON input.

B-6.6 CONGRESS

15-JUL-99		SUPPORT DATA MAINTENANCE: CONGRESS		052996PH	CONGRESS
STATE		DISTRICT	NAME		
AK	AL		YOUNG		
AK	SE		STEVENS		
AK	SN		MURKOWSKI		
AL	01		CALLAHAN		
AL	02		EVERETT		
AL	03		RILEY		
AL	04		ADERHOLT		
AL	05		CRAMER		
AL	06		BACHUS		
AL	07		HILLIARD		
AL	SE		SHELBY		
AL	SN		SESSIONS		
AR	01		BERRY		
AR	02		SNYDER		
AR	03		HUTCHINSON		
AR	04		DICKEY		
F10 = Exit		Shift-F2 = Display Next Set of Records		F2 = Query	
Count: 16		v		<List><Replace>	

Screen Selection:
PRISM Main Menu -- 6 (Support Data Maintenance)
Support Data Main Menu -- 5 (Congress)

This screen identifies all valid congressional district codes. These codes are used in the PBS module.

STATE
The two character state abbreviation.

DISTRICT
For members of the House of Representatives, this field contains the number of the congressional district, or 'AL' for at-large districts, or 'DE' for delegate districts. For the U.S. Senate, this field contains 'SE' for the state's senior senator or 'SN' for the state's junior senator.

NAME
The name of the current incumbent of the seat identified by the state and district codes.

B-6.7 ENVIRONMENTAL CATEGORY

15-JUL-99			SUPPORT DATA MAINTENANCE:ENVIRONMENTAL CATEGORY			053097PH	ENUCAT
ENV_CAT		ENV_CAT_NAME					
C	COMPLIANCE						
L	CLEANUP						
M	MITIGATION						
P	PROTECTION						
R	RESTORATION						
U	PREVENTION						

Screen Selection:
PRISM Main Menu -- 6 (Support Data Maintenance)
Support Data Main Menu -- 6 (Environmental Category)

This screen identifies all valid category codes used in the Environmental Program module.

ENV_CAT
The one character code used to identify environmental categories, such as 'M' for Mitigation, 'P' for Protection, and 'R' for Restoration.

ENV_CAT_NAME
The name of the environmental category, such as Mitigation, Protection, and Restoration.

B-6.8 FEATURE

15-JUL-99		SUPPORT DATA MAINTENANCE: FEATURE		052996PH	FEATURE
APPN		FEATURE	DESCRIPTION		
A	00	COMPLETED WORKS			
A	01	LANDS AND DAMAGES			
A	02	RELOCATIONS			
A	03	RESERVOIRS			
A	04	DAMS			
A	05	LOCKS			
A	06	FISH & WILDLIFE FACILITIES			
A	07	POWER PLANT			
A	08	ROADS, RAILROADS AND BRIDGES			
A	09	CHANNELS AND CANALS			
A	10	BREAKWATERS AND SEAWALLS			
A	11	LEVEES AND FLOODWALLS			
A	12	NAVIGATION PORTS & HARBORS			
A	13	PUMPING PLANTS			
A	14	RECREATION FACILITIES			
A	15	FLOODWAY CONTROL & DIV STRUCT			
F10 = Exit		Shift-F2 = Display Next Set of Records		F2 = Query	
Count: 16		v		<List><Replace>	

Screen Selection:
PRISM Main Menu -- 6 (Support Data Maintenance)
Support Data Main Menu -- 7 (Feature)

This screen identifies the valid feature codes available for use in the PB2A module.

APPN
A one or two character code used to identify the appropriation.

FEATURE
A code used to identify the feature (code of account) of a piece of work.

DESCRIPTION
The name of the feature.

B-6.9 GROUP

15-JUL-99		SUPPORT DATA MAINTENANCE: GROUP		052996PH	SEGROUP
GROUP		NAME			
A		NEW/CONTINUE DAM SAFETY ASSUR.			
C		ALL OTHER NEW OR CONTINUING			
D		NEW/CONTINUE DEFICIENCY CORRE.			
E		UNSTARTED SEPARABLE ELEMENTS			
F		NEW/CONTINUE RECONSTRUCTION			
I		REMAINING ITEMS			
L		BUDGETED FOR E&D & LA ONLY			
M		NEW/CONTINUE MAJOR REHAB			
P		NEW/CONTINUE REIMBURSEMENT			
R		RESUMPTIONS			
S		FISH & WILDLIFE/IMPROVE ENVIR.			
U		UNSTARTED PROJECTS			
F10 = Exit		Shift-F2 = Display Next Set of Records		F2 = Query	
Count: *12		<Replace>			

Screen Selection:
PRISM Main Menu -- 6 (Support Data Maintenance)
Support Data Main Menu – 8 (Group)

This screen identifies the valid group codes used in the PBS module.

GROUP
A code used to categorize types of projects.

NAME
A description of the group.

B-6.10 MAJOR BENEFIT

15-JUL-99		SUPPORT DATA MAINTENANCE: MAJOR BENEFIT		052996PH	BENEFITS
MAJ_BEN		NAME			
01	FLOOD DAMAGE PREV - URBAN				
02	FLOOD DAMAGE PREV - RURAL				
03	HURRICANE DAMAGE PREV - URBAN				
04	HURRICANE DAMAGE PREV - RURAL				
05	DRAINAGE				
06	SHORELINE PROTECTION				
07	BANK & CHANNEL STABILIZATION				
08	WATER SUPPLY - MUNI. & INDUST.				
09	WATER SUPPLY - IRRIGATION				
10	WATER SUPPLY - WATER QUALITY				
11	RECREATION - GENERAL				
12	RECREATION - FISHING & HUNTING				
13	RECREATION - FWP, REFUGES, ENHA.				
14	RECREATION - BOATING				
15	NAU - GEN COMM - DD HARBOR				
16	NAU - GEN COMM - SD HARBOR				
F10 = Exit		Shift-F2 = Display Next Set of Records		F2 = Query	
Count: 16		v		<Replace>	

Screen Selection:
PRISM Main Menu -- 6 (Support Data Maintenance)
Support Data Main Menu -- 9 (Major Benefit)

This screen identifies the valid major benefit codes used in the PBS module.

MAJ_BEN
A code used to identify the major benefit of a project.

NAME
A description of the major benefit.

B-6.11 STATE

15-JUL-99		SUPPORT DATA MAINTENANCE: STATE		052996PH	STATE
STATE		NUM	NAME		
AK		02	ALASKA		
AL		01	ALABAMA		
AR		05	ARKANSAS		
AS		AQ	AMERICAN SAMOA		
AZ		04	ARIZONA		
CA		06	CALIFORNIA		
CN		CA	CANADA		
CO		08	COLORADO		
CT		09	CONNECTICUT		
DC		11	DISTRICT OF COLUMBIA		
DE		10	DELAWARE		
FL		12	FLORIDA		
GA		13	GEORGIA		
GE		GY	GERMANY		
GU		GQ	GUAM		
HI		15	HAWAII		
F10 = Exit		Shift-F2 = Display Next Set of Records		F2 = Query	
Count: 16		v		<Replace>	

Screen Selection:
PRISM Main Menu -- 6 (Support Data Maintenance)
Support Data Main Menu -- 10 (State)

This screen identifies the valid state codes available within the PRISM system.

STATE
The two letter abbreviation for a state.

NUMBER
A numeric code associated with the state, used as a cross-reference code for 3011A data.

NAME
The name of the state.

B-6.12 STATUS

15-JUL-99		SUPPORT DATA MAINTENANCE: STATUS		052996PH STATUS	
-- STATUS CAN BE USED FOR: --					
STATUS	NAME	SURVEY	PED	CONSTR	OTHERS
A	ACTIVE	V	V	V	V
C	COMPLETED	V	V	V	V
D	DEFERRED	N	V	V	V
N	INACTIVE	V	V	V	V
R	REMAINING ITEM	V	V	V	V
W	COMBINED	V	V	V	V
X	DEAUTHORIZED	V	V	V	V
Z	OTHER	V	V	V	V
F10 = Exit		Shift-F2 = Display Next Set of Records		F2 = Query	
Count: *8		<Replace>			

Screen Selection:
PRISM Main Menu -- 6 (Support Data Maintenance)
Support Data Main Menu – 11 (Status)

This screen identifies the valid status codes used in the PBS module.

STATUS

A code used to indicate the status of a project or study.

NAME

The name associated with the status code.

SURVEY

A code that tells the system if the status code is valid for surveys.

PED

A code that tells the system if the status code is valid for ped projects.

CONSTR

A code that tells the system if the status code is valid for construction projects.

OTHERS

A code that tells the system if the status code is valid for records other than survey, ped, and construction.

B-6.13 SUBFEATURE

15-JUL-99		SUPPORT DATA MAINTENANCE: SUBFEATURE		052996PH	SUBFEA
APPN		FEATURE	SUBFEA	NAME	
B	02	10	RELOCATION OF ROADS		
B	02	40	RELOCATION OF RAILROADS		
B	02	70	RELOC OF CEMETERIES,UTIL,STRUC		
B	07	10	POWERHOUSE

B	07	30	ACCESSORY ELECTRICAL EQUIPMENT		
B	07	40	MISC POWER PLANT EQUIPMENT		
B	07	50	TAILRACE		
B	07	60	SWITCHYARD		
ER	02	10	RELOCATION OF ROADS		
ER	02	40	RELOCATION OF RAILROADS		
ER	02	70	RELOC OF CEMETERIES,UTIL,STRUC		
ER	07	10	POWERHOUSE		
ER	07	20	TURBINES AND GENERATORS		
ER	07	30	ACCESSORY ELECTRICAL EQUIPMENT		
ER	07	40	MISC POWER PLANT EQUIPMENT		
F10 = Exit Shift-F2 = Display Next Set of Records F2 = Query					
Count: 16 v <List><Replace>					

Screen Selection:
PRISM Main Menu -- 6 (Support Data Maintenance)
Support Data Main Menu – 12 (Subfeature)

This screen identifies the valid subfeature codes available for use in the PB2A module.

APPN
A one or two character code used to identify the appropriation.

FEATURE
A code used to identify the feature (code of account) portion of the F&A ADP Workcode.

SUBFEA
A code used to identify sub-features.

NAME
The name of the sub-feature.

B-6.14 SUPPRESS

```

15-JUL-99      SUPPORT DATA MAINTENANCE: SUPPRESS      052996PH SUPPRESS

```

SUPPRESS CODE	NAME
G	SUBFEATURES(excl from grunts)
H	FEATURES(excl from press,hist)
X	Capa parentheses,excl both G&H

F10 = Exit Shift-F2 = Display Next Set of Records F2 = Query

Count: *3 <Replace>

Screen Selection:

PRISM Main Menu -- 6 (Support Data Maintenance)
Support Data Main Menu – 13 (Suppress)

This screen identifies the valid report suppress codes used in the PBS module.

SUPPRESS CODE

A code used to suppress certain projects from various reports in the PBS module. Records coded with 'G' are excluded from all budget reports and the balance-to-complete report. Records coded with 'H' are excluded from the press release report. Records coded with 'X' are excluded from all reports mentioned above. The Capability and PBS Project/Study List reports do not exclude any records based on this code. On the Capability report, records coded with 'X' will be displayed surrounded by parentheses.

NAME _____

The name of the report suppression code.

B-6.15 WORK ALLOWANCE TYPE

15-JUL-99		SUPPORT DATA MAINTENANCE: WORK ALLOWANCE TYPE		052996PH	WKALTYPE
		TRANS	TRANSACTION		
		TYPE	DESCRIPTION		
		5M	5 MILL		
		ALW	ALLOT WITHHELD		
		C	CONFERENCE		
		CGR	CONGRESSIONAL		
		CRA	CRA		
		D	DEFERRAL		
		FD	DIS TRANSFER		
		FM	MSC TRANSFER		
		G	G-R-H		
		H	HOLD		
		I	IMPOUNDMENT		
		J	JOBS		
		O	OTHER		
		OA	OTHER ADJUSTMENT		
		OCE	HQ TRANSFER		
		P	PL-99		
F10 = Exit		Shift-F2 = Display Next Set of Records		F2 = Query	
Count: 16		v		<Replace>	

Screen Selection:
PRISM Main Menu -- 6 (Support Data Maintenance)
Support Data Main Menu -- 14 (Work Allowance Type)

This screen contains the valid codes used in the Work Allowance module to identify transaction types.

TRANS TYPE

A code used to identify the type of a work allowance transaction.

TRANSACTION DESCRIPTION

A description of the work allowance transaction type.
